RE: Request to re-review and prioritize Oleander Drive and Oleander Place road conditions

The Peninsula Community Planning Board (PCPB) and community members would like to advocate for a re-review of the road conditions and request a temporary repair solution for Oleander Drive and Oleander Place, until a permanent repair can be completed. At the discretion of the city, we respectfully request the following mitigations:

- Re-review of the road conditions on Oleander Drive and Oleander Place; causing safety concerns for the community
- Request a temporary repair solution such as a Slurry Seal or Cape Seal for Oleander Drive and Oleander Place

The PCPB and community members have submitted numerous requests (emails, phone calls, and Get it Done requests) and letters to Dr. Campbell's office dating back to August 3, 2020 citing safety concerns for: pedestrians' injuries while walking on the road, cyclists' accidents due to cracks and potholes, a number of accidents to elderly residents falling down on the road, and residents with disabilities not being able to walk on the road (there is not a sidewalk installed on south side of Oleander Drive). For reference, last repairs that were completed on Oleander Drive and Oleander Place were in 1987 (road was repaved) and 2001 (road received a Slurry Seal).

Although other projects may have delayed repairs on the road, we believe too much time has gone by without action to improve the safety of the road. Based on local community inputs and inquiries to Dr. Campbell's office over the last five years, the PCPB is requesting that the City of San Diego Traffic and Transportation department conduct an immediate review and prioritize the road conditions of Oleander Drive and Oleander Place.

The letter was approved with a vote of XX-XX.

Thank you for your support and time and consideration on this matter.

Sincerely,

Frederick Kosmo,
PCPB-Chair
