RE: Safe Routes to Schools along Famosa Blvd.

The Peninsula Community Planning Board is requesting that the section of Catalina and Famosa Blvds. from Voltaire St. to Valeta St. be evaluated for safety and the Safe Routes to School Program. The PCPB's Traffic and Transportation Subcommittee has identified seven safety recommendations for the Famosa/Catalina corridor from Voltaire to Valeta.

1. Implement a bike facility from the Correia JH School west fence/Famosa exit to Voltaire supporting the Safe Routes to School Program.
2. Remove lone/single parking space from southbound Famosa prior to Nimitz on-ramp to allow for a Class II bike lane and better visibility. Align Famosa double yellow lines at Nimitz on-ramp.
3. Add flex posts to the Class IV Cycle Track adjacent to Coreia JH School.
4. Apply green dashed paint markings at the Class IV Cycle Track to Class II interchange.
5. Apply green dashed paint markings for bike/mobility lanes across all street/drive/onramp intersections.
6. Remove parking on the south side of Famosa Blvd. to create a continuous Class II bike lane.
7. Diligent and regular parking enforcement of the newly created diagonal parking places of overly long trucks, trailers and other vehicles dangerously extending into the travel lanes of Famosa Blvd.

The PCPB requests that City Staff meet and collaborate with the Traffic and Transportation Subcommittee in implementing these recommendations.

Thank you,

Robert Goldyn
PCPB-Chair
