2. Action Items (action is not required to be taken)

a. Introduction and presentation from all 3 high school student liaison position applicants. (5 minutes for each applicant) After all applicants have presented the board will pull 2 names from a hat to fill the high school liaison positions for 2021-2022

Introduction of Environmental subcommittee members as well as applicants. There were three applicants but two attendants to the mandatory meeting: Caleb Rogart and Anastasia Birmingham.

Mandy suggests tasking the two students liaisons with researching and writing a letter to the district representative proposing an environmental mitigation or potential improvement to the community. The end goal would be a letter that would be up for a vote of approval by the subcommittee members to present to the main board to get approved and ultimately sent.
