RE: Request a flashing beacon to be installed on Catalina Boulevard, cross street Varona St.

The Peninsula Community Board and community members would like to advocate for a flashing beacon for safety improvements of pedestrians crossing on Catalina Boulevard cross street Varona Street. At the discretion of the city, we respectfully request the following mitigations:

- Installation of a flashing beacon on Cataline Boulevard

We believe this recommendation would help pedestrians to safely cross the street by using the flashing beacon at this intersection. The distance to the nearest crosswalk is .25 miles which makes it challenging for pedestrians to quickly get to another crosswalk to safely cross Catalina Boulevard. The speed limit on Catalina Boulevard is 35 mph and a wide two-lane street in which traffic tends to travel at a higher rate of speed, making it unsafe for pedestrians to cross the street. The flashing beacon will help to slow traffic down to allow pedestrians to safely cross the street to attend events in the parks such sports little league games, concerts, and other wellness activities that take place at the Point Loma Park Baseball Fields and Point Loma Community Park.

The letter was approved with a vote of 00-00.

Thank you for your support and time and consideration on this matter.

Sincerely,

Frederick Kosmo, PCPB-Chair
