Kris McFadden, Director at City of San Diego Stormwater Department
Gary Pence, Senior Traffic Engineer City of San Diego Transportation and Storm Water Dept

RE: Letter requesting improved signage and enforcement of street sweeping

The Peninsula Community Planning Board (PCPB) is concerned about the implementation and inconsistent administration of street sweeping and signage. We understand the importance of consistent street sweeping to protect our waterways from being polluted. The PCPB specifically requests that the City of San Diego improve current installed street sweeping signage to accurately reflect the date, time and intervals of scheduled street sweeping throughout our community. This will further encourage community compliance of street sweeping intervals and will ensure our streets are cleaner and storm drains are clear of trash and debris.

The Peninsula Community Planning Board (PCPB) requests the following:

- Provide consistent signage for street sweeping
- Request additional signage to be installed where it is not posted to ensure our community streets are being cleaned on a consistent basis
- Request consistent enforcement of cars illegally parked in areas marked for street sweeping
- Enforce posted signage to clean pollution in the streets
- Ease to accessibility in the knowledge of dates and times of street sweeping
- Signs need to reflect correct, consistent dates and intervals of sweeping
- Times for sweeping need to be made available to the public (online)

Community members have reported a lack of adequate signage but more importantly a lack of enforcement for street sweeping throughout our community. We recognize the important need for street sweeping to help clean the streets and to keep pollution out of our ocean and protect the water quality of the ocean.

The Peninsula Community Planning Board voted unanimously (13-0) to approve this request.

We appreciate your support.

Sincerely,

Frederick W. Kosmo, Jr.
Chair, PCPB
